

Press release

IMMEDIATE RELEASE: LEEDS- THURSDAY 19TH APRIL 2018

Maiden Voyage Launches Traveller Wellbeing Webinar Series

Female business traveller experts, Maiden Voyage, has launched a series of webinars to improve the wellbeing of business travellers globally, the series is sponsored by easyJet for business travellers.

The series, delivered by health, wellbeing, and global travel experts is available to both male and female business travellers in Maiden Voyage's community and covers topics such as: how to ensure a stress-free trip, beating jet lag and navigating international cultures, with more well-being-related topics on the horizon.

CEO and founder of Maiden Voyage said "We are delighted that we are able to make the business travel experience happier and smoother for our community and their colleagues. Early starts, late nights, different time-zones, and disruption to regular eating and exercise patterns can affect business travellers and their ability to perform at their best. For many, business travel is an essential part of their role and a few practical and simple lifestyle adaptations when travelling can make a significant difference."

Andrea Caulfield-Smith, Head of Business Development for easyJet said, "easyJet aims to make travel easy and affordable for all passengers. More business travellers continue to choose easyJet thanks to our convenient schedule and comprehensive network connecting 156 airports in 33 countries, alongside award-winning customer service and the best value fares. Those travelling for business now account for almost a fifth of easyJet's passengers and that number continues to grow."

Notes to editors

About easyJet

easyJet is Europe's leading airline offering a unique and winning combination of the best route network connecting Europe's primary airports, with great value fares and friendly service.

easyJet flies on more of Europe's most popular routes than any other airline. easyJet carries over 82 million passengers annually, of which more than 13 million are travelling on business. easyJet flies 298 aircraft on more than 980 routes to 156 airports across 33 countries. More than 300 million Europeans live within one hour's drive of an easyJet airport.

easyJet aims to be a good corporate citizen, employing people on local contracts in seven countries across Europe in full compliance with national laws and recognising their trade unions. The airline supports a number of local charities and also has a corporate partnership with UNICEF which has raised over £10m for the most vulnerable children since it was established in 2012.

The airline takes sustainability seriously. easyJet invests in the latest technology, operates efficiently and fills most of its seats which means that an easyJet passenger's carbon footprint is 22% less than a passenger on a traditional airline, flying the same aircraft on the same route.

Innovation is in easyJet's DNA – from our launch over 20 years ago when we changed the way people fly to the present day where we lead the industry in digital, web, engineering and operational innovations to make travel more easy and affordable for our passengers.

About Maiden-voyage.com

Maiden-voyage.com is the global specialist in the female business travel market. With over 12000 members and over 80 local ambassadors, Maiden Voyage provides organisations with duty of care solutions and training to support their female business travellers. In 2011 Maiden Voyage, with the help of its community, set the global standard for female-friendly hotels which drives the contracting decision for both employers and travel management companies alike.
